# IT'S ALL ABOUT YOU

Your family. Your memories. Your photos

***Are you a mum who is never in family photos?***

***You know how important it is to capture those everyday moments, but time is just going too fast?***

***Just had a baby and worried you won't feel great in front of the camera or look good in the photos?***

Well I'm here to help you capture the special moments in your life, in my special way - welcome to Little Beans! You have taken your first step to documenting your everyday family life.

I am so excited that you are considering a photo session. Thank you so much for getting in touch.

Booking a photo session can be a little daunting. You may have had one for your wedding day but never even considered anything else until now.

You've probably asked yourself, *How does a family session work? Will I have to pose lots and feel really awkward?* Rest assured that Little Beans Photography would make it a really enjoyable experience.

You won't even have to look at the camera unless you want to. I just love to capture the real you in your natural surroundings. Does this sound like fun?

I want you to be able to make an informed decision and really get to know my style and me so I have created this brochure just for you. I hope it gives you all the information you need.

If you think Little Beans would be the type of photography session you would like, then please do get in touch. I look forward to hearing from you soon.

*Lisa xx*

# THE LITTLE BEANIES STYLE

Real, natural, fun

Real life isn't posed, and your children rarely sit still - so why would you want the photographs that reflect the most significant moments of your life to be like that?

A Little Beanies photo session documents your very own real and fun-filled story - the story of your unique family life featuring everyone, even mum & dad!

You'll have photographs to literally treasure forever.

## YOUR LIFE THROUGH MY LENS

You didn't know what busy was until your kids arrived! Life is hectic, whether it's clearing up the breakfast with one hand and doing laundry with the other, or just trying to help with homework at the same time as trying to carve out some time for yourself.

However, we're so lucky to have these little people in our lives, and, let's face it, it goes far too quickly. We need to capture these moments and adorable faces forever - before we miss them.

I'm here to help you preserve the memories and the story of your family - as little ones are added, and as the little ones get bigger!

No, I'm not a miracle worker, I can't freeze time! However, I can do the next best thing, which is to capture your life through my lens - and as mum and dad, for once, you'll both actually be in the pictures!

We spend thousands of pounds on wedding photos, but we don't invest in recording our real, authentic life with our families. And after all, aren't those everyday moments the ones that really do make up a lifetime of happiness?

## CAPTURING YOUR STORY - REAL LIFE DOCUMENTARY PHOTOGRAPHY

When I started out on my photography journey, I very quickly realised I just loved spending time with children and families in their own everyday surroundings.

Inside the home are my favourite. After all, this is where you spend most of your time - and it's where I can get the best out of your kids.

All of my sessions are totally natural and fun, and I won't once ask you to look at the camera unless you specifically ask for one or two posed shots.

## LETTING KIDS BE KIDS

If the kids want to wander off, we let them. They are the star of the show, and we work around them. This is why I very rarely get tears or tantrums. And if we need a change of scenery, we go outside.

In the warmer months, it's also great to get outdoors and go to one of your favourite places, and I'll capture you spending time with the kids, laughing, joking, riding bikes, enjoying a picnic. It's all about having fun.

In fact, you'll be having so much fun that you'll forget I'm there - and I'll just be snapping away in the background and capturing those real, heartfelt moments.

# MEET LISA

## The one behind the lens

Hi there! My name's Lisa, and I'm a natural light photographer, specialising in bumps, babies, families, and births.

A northern lass at heart, I live in the beautiful countryside of Warwickshire. I'm so lucky to have such stunning settings on my doorstep, but I do travel all over the UK and often head back to my hometowns of Sheffield and Manchester. I have two high-energy small boys myself - so I know exactly how important it is to capture every moment. It just goes too fast!

Discover how I capture the connections, pure emotions, and, of course, the smiles, of your family - and turn them into beautiful photos that will be treasured for generations to come.

From the beginning, I was asked to document families, and then when I had my boys (my Little Beans!), I discovered my true calling, which was to focus on photographing little ones in the most real and authentic way possible - all of the giggles, fun, emotions, pure innocence.

As a mum, I know how important it is to make the most of the time when your children are little. They grow up so quickly, and although you are onto the next amazing chapter, you somehow don't want to let go of that previous stage.

I'm passionate about creating fun-loving and real moments and documenting them as a completely unique story for you to literally treasure forever.

**"My love for photography began before I had children - I just love people, and capturing real moments was my thing."**

I don't do weddings, never have - there is just something about those exceptional connections of a family on just an average 'ordinary' day that I love.

Particularly close to my heart is Birth. Witnessing, and capturing new parents meeting their baby for the very first time, is a dream come true for me, and something I am very honoured to do. It's a life-changing event and having exquisite photographs to remember it by is something very special. I have a bespoke brochure for this so please do get in touch if you are interested.

# WATCH YOUR LITTLE BEANIES GROW

## ARE YOU WORRIED YOU ARE GOING TO MISS THOSE KEY MILESTONES?

Don't worry, Little Beanies can handle this for you with some excellent bundles which offer great savings if you book ahead.

### DON'T MISS A SECOND

If not missing a second is really important to you, and you want to make sure you (mum & dad!) feature in your treasured memories, then you may want to consider my popular 'Bump to Baby' or one of the 'Watch your Little Beanies Grow' packages.

This special set of 2, 3 or 4 photo sessions captures the entire first year of your baby's life, from bump and/or newborn to sitting- up stage and then right up to their first birthday or when they decide to take their first steps.

As with all of my packages, you choose the locations and when you would like them booking.

### WHAT ARE THE ADVANTAGES OF BOOKING THIS PACKAGE

Firstly, I absolutely love to get to know my families and this can only be a benefit to you too, as you and your baby will become so familiar with me, that a photo session really is a walk in the park.,

You will also benefit from great savings by booking ahead.

If you know that I'm going to be coming along for a shoot to capture that next milestone, then it takes the pressure off you. What's more is that both mum and dad will be in the photos. Which let's face it, never happens!

By using the same photographer you will also have consistent photos in the same Little Beanies style which will make your walls look even more amazing!

“ Lisa is so lovely to work with! She captured our family perfectly. She made us feel very relaxed and we almost forgot we were having photos taken! We are delighted with the photos she took and decided to book her for another two photo sessions as part of her Watch Your Little Beans First Year Package! ... thanks so much Lisa!

REBECCA, SNITTERFIELD ”

# PRODUCT PRICE LIST

## Choosing the perfect prints

After the shoot you will receive a viewing gallery online and this can be shared with your family and friends. You can then choose your images to be either printed or purchased as high res images for you to print yourself from the 'PRODUCT PRICE LIST' or from the 'LITTLE BEANIES SIGNATURE COLLECTIONS' and 'JUST FOR YOU' packages, experiences and extras. Most people choose these as they provide great savings. Most people spend in the region of £500-£2000 as an average per session to give you a guide.

### DIGITAL IMAGES

### CANVAS WRAP

Simple and modern... beautiful box canvas print, with the image printed onto high quality canvas and stretched over a wooden box frame

**Prices available on request**

“When we first contacted Lisa we built up a great relationship from the very beginning. We could tell from the start that her photos were going to be really special. We loved the relaxed style and the fact they were taken in our own home was just perfect for us. Even my husband loved the session too and he hates having his picture taken. They were so beautiful Lisa, thank you so much. ”

TARAH, WARWICKSHIRE

# FAQS

I have specific answers to the different sessions & experiences over on Little Beanie's Website however for more non-specific questions and answers I have popped a few here but please get in touch if there is anything specific you want answering.

## **What happens if it rains or my children are unwell?**

This is nature of my job as I work with kids and illnesses do happen. If this is the case we can look to reschedule based on availability at the time. With regards to weather we will literally leave it until the last minute as UK weather can be so unpredictable and we will make a call. The session fee is non-refundable.

## **How long does a session last?**

It depends what session you go for but the majority only last an hour but I leave up to 2 hours to allow for settling etc. I normally get everything I need within this time but I'm happy to stay longer if required, however, from my experience children get bored very quickly and most of my clients prefer it to be in a short space of time so they can get on with their day too. If you would like longer than 1-2 hours then please go to my Day In The Life offering which is either a half-day or full day.

## **When is a good time of day to have a session?**

Normal 1-2 hour sessions either take place in the morning from 9am or afternoon from 1pm. There are also opportunities in the Summer months to schedule a session after school from 3.30-4pm. Weekday sessions in the school holidays are a good option to take advantage of the reduced weekday session fee.

## **When will my images be ready following a session?**

You will be sent a link within 3 weeks to a full gallery of images to choose from and a slideshow that can be shared with friends and family. I am happy to meet if you would like to or have a video chat to run through anything specific you would like and to show examples. Once you receive the images you will have 1 week to choose the selection of what you would like using an order form or booking directly online.

## **Is there a minimum spend on products?**

There is a minimum product spend of £300 for clients outside 15 miles of Warwick.

## **When is the best time for a Newborn session?**

This is my most frequently asked question so I have written a [blog](#) where you can find all the answers.

## **When & what is the best time to photograph my bump, baby, toddler, kids?**

It's very personal as to when you would like the photo's taken as every stage is just magical, but to guide you I have written this [blog](#) post to help you decide what's right for you.

## **Is travel included?**

Yes within a 15 miles radius of Warwick but I'm happy to travel further a field and all over the UK for a small charge of 45p per mile or a train fair.

## **Do you have a studio?**

Non of my sessions are held in studios, it is pure documentary photography to capture everyday life in your own environment of you and your family. I feel I can get the best from you that way.

## **Do you take any posed photographs?**

Although my style is very much in the moment, I will of course endeavour to capture the odd few of you all looking at the camera in a group. This is normally for only 10 minutes of the session. If there is anything specific you require on the day please let me know beforehand.

## **What if my house is too small and I won't have time to tidy it?**

I honestly don't want you to worry about this at all. I work with the best equipment that works in low light and small areas. My style very much compliments this but please chat with your concerns. In terms of tidying, this is everyday life after all so

there is no need to do too much. I'm quite happy to move things around as we go. Especially when you have just had a baby, it's the last thing you need to be worrying about.

## **We love your natural light style but concerned our house maybe too dark?**

As I am a natural light photographer I do not use flash so if you are worried about having a small dark house, don't be, as I will make the most of the available light. I may make you stand or sit in a preferred location in the house because of this but we will still get some beautiful photographs.

## **We love your relaxed natural style and would like to book you. What do we do now?**

Thank you! I can't wait to meet you and capture your life. The process is really simple. All you do is decide on a time slot depending on my availability and pay the booking fee to secure the session. Please head over to my site or my contact details are on the next page to get in touch. This is when your experience with Little Beanies begins. Before your session I will send you a welcome pack with what to expect and I am more than happy to have a video or phone chat to talk about anything you would like. I promise you, you will be all ready for when I arrive on the day.
